

SUN PASS®

PREPAID TOLL PROGRAM

SAVES TIME AND MONEY

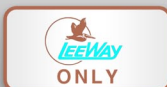

WHAT IS SUNPASS?

SunPass is the Florida Department of Transportation's prepaid toll program. It can be used on all Florida toll roads and most bridges to pay tolls without stopping. SunPass saves time and money. It is not currently available for use in other states, and other states' transponders will not work in Florida. SunPass can also be used to pay for parking at Fort Lauderdale-Hollywood, Palm Beach, Tampa, Miami and Orlando International Airports with enrollment in SunPass Plus.

HOW SUNPASS WORKS

1. Buy a SunPass Portable or SunPass Mini
2. Register (see reverse side)
3. Activate it by adding \$10.00 minimum
4. Install inside vehicle windshield (details in package)
5. Your SunPass is ready to use in "SunPass Only", "E-Pass Only", and "LeeWay Only" lanes immediately. All other lanes can be used at 6:00 AM the next morning.

READY TO USE IMMEDIATELY WITH ACTIVATION

|---------------------------------|-----|-----|
| Can be moved from car to car | NO | YES |
| Requires permanent installation | YES | NO |
| Can be used with motorcycles | NO | YES |

RENTAL CARS

Most major rental car companies offer toll payment programs. Please contact your rental car company for specific details. You can also use a SunPass Portable instead; just remember to remove it before returning the rental car. SunPass Mini is not recommended for rental cars unless they are provided by the rental car company.
